

Have you considered

going green

in your career move?

Workers in green jobs produce a product or service that improves energy efficiency, expands the use of renewable energy or helps maintain our natural environment.

If you ...

have a passion for environmental issues,
want to work on the leading edge of technology,
want to contribute to the betterment of the world,
seek work that contributes to your ideals,

consider South Dakota opportunities in new & emerging energy jobs like:

Environmental Manager
Fuel Procurement Manager
Forestry Technician
Molecular Biologist
Operator for Liquid or
Aquaculture System
Solar Energy System Engineer
Strain Breeder

or industries like:

Biofuel Production using Algae
or Biochemical Systems
Biomass Gasification Power
Cellulosic Ethanol Production
Geothermal Energy
Smart Grid and Smart Meters
Wind Energy using Horizontal
Axis Wind Turbines
